DO No. DCM(AP)/1/2017/ Dated 29<sup>th</sup> march 2018

#### **MESSAGE**

I am happy to know that Arunachal Pradesh Schedule of Rates-2018 and Arunachal Pradesh Analysis of Rates-2018 for Building Works and Services is being brought out by Public Works Department, Arunachal Pradesh. This schedule of rates will be useful for realistic evaluation of projects as well as their effective implementation at site.

I believe all Engineers responsible for implementing construction of building infrastructure in the state will make proper use of this schedule and give utmost priority in quality and durability in construction so as to ensure safety of the occupants of the building in the event of any natural calamity.

My best wishes to the Engineers of Public Works Department, Arunachal Pradesh.

(Chowna Mein)

## B. Pertin, IAS

Commissioner & Secretary, Govt. of Arunachal Pradesh (INDIA)

ITANAGAR - 791 111.

Date 3.2018.

DO No. COM/PWD-1/2017-18.

## **MESSAGE**

I am pleased to learn that the Public Works Department, Arunachal Pradesh is going to release Arunachal Pradesh Schedule of Rates-2018 and Arunachal Pradesh Analysis of Rates-2018 for Building Works and Services incorporating items of works with upgraded specifications. The Schedule of Rates play an important role in pre-construction activities like preparation of estimates, design and pre-planning of quality of the projects to be delivered on its completion.

The state of Arunachal Pradesh falls under Seismic Zone-V which indicates high probability of occurrence of earthquake of high magnitude in the region. Therefore, quality in construction of building is non compensable for safety of the occupants of the building in the event of an earthquake. Thus, revision of schedule of rates at regular intervals with prevailing market rates is inevitable to ensure quality and durability of the buildings constructed in the State of Arunachal Pradesh.

I understand all Engineers constructing Govt. buildings will make utmost effort for providing seismic resistance in buildings by adopting appropriate technology and ensuring quality in the works.

I congratulate all the officers and officials who have been involved in preparation of Arunachal Pradesh Schedule of Rates-2018 and Arunachal Pradesh Analysis of Rates-2018 for Building works and Services.

(Belatee Pertin)

29/3/16

Commissioner (PWD)

## **FOREWORD**

The Arunachal Pradesh Schedule of Rates and Analysis of Rates covering the items of building works and services was last published in the year 2014. The Schedule of Rates provides a basic frame work to evaluate cost estimate of the projects. Over the period of last few years, the prices of labour and materials have increased appreciably necessitating revision of the existing Schedule of Rates. The Arunachal Pradesh Schedule of Rates (APSR 2018) and Analysis of Rates (APAR 2018) for Building Works and Services is brought out after updating the basic rates of materials to present market rates.

The important establishments in the state where major construction activities take place are scattered in different locations with varying distance from the foothills. Hence, in order to evolve common rates for the major construction activities for the purpose of the publication of the Schedule of Rates 2018 (Building Works and Services), the rates of major construction materials like Cement, Steel and Bitumen are updated based on the rates in nearest authorized dealers located in foothill in Assam and in Arunachal Pradesh. In the process of project costing based on this Schedule of Rates, the additional cost involved in carriage of materials from approved sources to site of work shall be added to arrive at the actual execution cost. Further the schedule of Rates shall not be directly adopted for payment to contractor for the work done by them at any site.

Basic structure and methodology of analysis of items in this schedule are as per the APSR 2014 (Building works and Services). As per IS: 456: 2000, the RCC works are to be carried out with minimum of M-20 grade of concrete. The state of Arunachal Pradesh falls in Seismic Zone-V, on account of which good quality concrete in building structure is inevitable for safety of the users. Therefore, the concreting work must be carried out with broken aggregate confirming the specified grade.

The basic rates adopted in the analysis are inclusive of all taxes of central/state and any local monopoly charges as was prevalent in March 2018 but exclusive of carriage cost from the source up to the specific site of work.

While framing the estimates, the users are to add the carriage charges with actual lead & terrain involved as per rates given in the chapter "Carriage of Materials" which now contains rates for loading, unloading and haulage for both Road in plain terrain and for Road in hilly terrains.

The APSR 2018 for Building works and Services is in conformity with the CPWD specification for building works and services. It is emphasized that while adopting the schedule, the users should fully acquaint themselves with the updated CPWD specification for Building Works and Services.

Apart from state PWD, this Schedule of Rates is being used as a guide by a number of departments, public sector undertakings, private builders, architects etc. The state PWD will welcome comments on this Schedule of Rates and Analysis of Rates from the users for improvement in future publication.

I would like to express my appreciation for the sincere effort and dedication put in by all staff in bringing out the Schedule of Rates 2018 (Building works and services) and Analysis of Rates 2018 (Building works and services) with the spirit of teamwork.

Phone No.: 0360-2212431 (Office)

E-mail: <a href="mailto:cecsqpwd@gmail.com">cecsqpwd@gmail.com</a>

Chief Engineer (CSQ)
PWD, AP, Itanagar.

## **PREFACE**

- APSR 2014 and APAR 2014 of building works and services is updated to APSR 2018 and APAR 2018 respectively collecting basic rates from all the divisions / circles of PWD department as on 2018. All the basic rates furnished by the divisions are of zero lead and assumed to be inclusive of all taxes. Carriage charge has to be accounted separately as per actual rate given.
- The rates for completed items at the site of work shall be inclusive of basic rates of materials plus the actual carriage cost of materials from source / approved quarry to the site of work. The carriage cost of each category of material can be worked out with the carriage chart attached with this SOR prepared for both plain and hill road parameters based on status of road in hilly Himalayan region of Arunachal Pradesh.
- 3 The basic materials incorporated in this APSR-2018 are conforming to CPWD updated specifications and are supposed to be executed as per works manual 2014. The scheduled rates (building works and services) 2018 is now brought out purely for calculating cost of the projects by detailed estimation.
- 4 The over-head charges / Contractors profit of building works and services has been taken to be 10%.
- It is mandatory as per CPWD manual that the scheduled rate is updated after every 2(two) years. Hence, this scheduled rate will be due to be revised / updated by 2020. Accordingly all Divisions / Circles of PWD should furnish basic rates to this office in due date.
- I express my sincere thanks to all office staff members and officers of CSQ, PWD for contributing their time compiling this schedule. Special thanks goes to Shri P.S Bhattacharjee, D/Man Grd.II (CSQ); Shri Lindom Nikte, JE (CSQ); Shri Lishi Kanu, JE(CSQ); Shri S.K Swarnkar, JE (CSQ) and Shri Limar Riba, ASW(SID&P) for their special attention on the Job.
- Due care has been made to bring APSR 2018 / APAR 2018 without error; Still if such errors are noticed; same could be intimated to SE(CSQ) for necessary correction in the next edition.

Tayu Gara

Superintending Engineer (CSQ) PWD, AP, Itangar.

## **PAGE-INDEX**

CHAPTER	SUB-HEAD	PAGE
	INPUT BASIC RATES (ZERO LEAD)	01-18
1	TEMPORARY ITEMS	19-28
2	EARTHWORK	29-42
3	MORTARS	43-49
4	CONCRETE WORK	50-70
5	RCC WORK	71-87
6	BRICK WORK	88-96
7	STONE WORK	97-104
8	WALLING	105-108
9	WOOD WORK	109-149
